

Trinso is expanding its activities

On 17. 6. 2004 Trinso aquired company Ardex.net, enabling to provide customers with leading web design services.

The two companies met together first in year 2003 to develop web based content management system for slovak car distributors. Since then the cooperation grew and synergy effect enabled to provide higher-value services to the customers.

About Trinso s.r.o

Company was founded in 2003 serving as service provider and system integrator. Focusing to deliver the maximum ratio of benefit/cost for its client, Trinso adopted Microsoft technologies for its mainstream development as it offers superior productivity.
